EDUCATION

Bachelor of Science in Computer Science | University of Colorado Boulder | Boulder, CO | GPA: 3.3

Expected Graduation: May 2025

SKILLS

Languages: Python, C/C++, Java, JavaScript, SQL, HTML/CSS

Frameworks & Libraries: NumPy, Pandas, Flask, JavaFX, Gatsby.js, Node.js

Other Tools: GitHub, Agile, PostgreSQL, MySQL, Figma, OpenGL

EXPERIENCE

Tech Director | HackCU | University of Colorado Boulder | *August 2024 - Present*

- Leading two developers to maintain and enhance hackcu.org, built with Gatsby.js (React + GraphQL) and Node.js.
- Overseeing the development of a new website for our annual hackathon in Spring, hosting 200+ participants.
- Managing project timelines using Agile and Plane.so, assigning tasks, and ensuring team alignment with key milestones.
- Collaborating with cross-functional teams to implement design and technical updates for multiple student workshops.

Technical Lead | Sugar | CU Innovation & Entrepreneurship | *August 2024 - Present*

- Leading a team of six to develop Sugar, an app that reduces food waste by enabling neighborhood food sharing.
- Building an MVP using React Native, including a marketplace for amateur chefs and bakers to sell homemade goods.
- Iterating on the business model and product features through Agile sprints and user feedback.

PROJECTS

3D Alien Planet Adventure | **Computer Graphics** | University of Colorado Boulder | *Fall 2024*

- Developing an interactive 3D space exploration game featuring alien planets and cities using C++, OpenGL, and GLUT.
- Applying techniques in 3D transformations, camera controls, and real-time rendering for dynamic environments.
- Updating the project weekly on GitHub, with the goal of a fully interactive game by the semester's end.

Property Predictor | **Data Science** | University of Colorado Boulder | *Summer 2024*

- Cleaned and engineered a dataset of over 500,000 property records using Python.
- Utilized Pandas, Seaborn, and Scikit-learn to build and evaluate multiple regression models.
- Addressed potential biases and ensured fair outcomes in the predictive analysis using Matplotlib and Plotly.

Mountain Hike Planner | **Object-Oriented Analysis & Design** | University of Colorado Boulder | *Spring 2024*

- Developed an interactive, object-oriented desktop application in Java using JavaFX and Jackson.
- Applying Singleton, Factory, Observer, and Strategy patterns for optimal code structure.
- Ensured application robustness with unit and BDD testing, achieving 80% code coverage.

A Love Letter to Love Letter | **Software Development** | University of Colorado Boulder | *Summer 2023*

- Built a full-stack web-based card game using Python, Flask, PostgreSQL, JavaScript, and HTML/CSS.
- Collaborated with a team of four, managing version control and development through GitHub and Trello.
- Applied Agile (Scrum) for project management and iterative development.

Dungeon Escape | **Starting Computing** | University of Colorado Boulder | *Fall 2023*

- Developed a terminal-based C++ dungeon escape game with randomized levels, treasure encounters, and enemy AI.
- Achieved 100% error-free code through rigorous testing and GDB, demonstrating proficiency in C++.

AFFILIATIONS

Generative AI Club | Member | University of Colorado Boulder | *February 2024 - Present*

- Participating in discussions on the latest news and developments in generative AI technologies.

Game Development & Graphics Club | Member | University of Colorado Boulder | *September 2023 - Present*

- Gaining insights on game development and design fundamentals, while collaborating on game ideas.

D1 Ice Hockey | Player | University of Colorado Boulder | *August 2022 - Present*

- Committed to a minimum of 20 hours per week to compete at a highly competitive collegiate level.

ADDITIONAL EXPERIENCE

Valet/Bell | St. Julien Hotel & Spa | Boulder, CO | *June 2024 - August 2024*

Valet | Lone Star Valet | Dallas, TX | *July 2021 - July 2022*

Detail | Carmel Car Wash | Frisco, TX | *August 2018 - July 2021*
